## SPOTLIGHT SPEAKER

### MARK BLACK

Mark Black is a Heart and Double-Lung Transplant Recipient – turned – 4-Time Marathon Runner, Author, Coach and Speaker. Born with a life-threatening heart defect, Mark underwent two open-heart surgeries before the age of one. His parents were told to expect more surgeries before he started school. Mark was not expected to live a long life. He battled his condition and its limitations successfully for twenty-two years before having to face the biggest challenge of his life. Mark's doctor informed him that his heart was failing badly and that without a rare and dangerous heart and double-lung transplant, he would not likely see his 25<sup>th</sup> birthday.

In October 2001, Mark moved thousands of kilometres from home and was put on the transplant waiting list. After just four months on the list, Mark's condition grew worse and he was placed in the hospital where he lived on the precipice of life and death, for 6 months.

Finally, by the grace of God, on September 7<sup>th</sup>, 2002, after almost a year on the list, Mark received a second chance at life: a life-saving Heart & Double-Lung Transplant.

The average lifespan of someone with his transplant is 5-10 years. It's been 16 years since Mark's transplant. He is in his 40s. It is

very unlikely Mark will live to see his 50s. This is what makes his message so powerful. He lives the strategies and principles he teaches, and he is filled with passion and purpose for his work precisely because he doesn't know how much more time he'll be afforded to do it.

Since receiving his second chance at life Mark hasn't wasted a moment. After meeting the love of his life, Marise, the two married, and they have 3 healthy children. Mark has travelled the globe speaking to more than 150,000 people.

# PRESIDENT'S REPORT

BY PAULA DOUCET

This has been a particularly challenging year for many of our members, and all signs suggest we are in for an even more demanding road ahead. There has never been a time more important than now for Registered Nurses and Nurse Practitioners to use their voice and speak up to support each other in our workplaces. Together, we have the collective power to create positive change. Think about what is happening around you. Many of the pressures you and your colleagues are feeling every day are steadily increasing. I hear from members regularly how they are working short, working overtime, expected to do more with less while their patients, clients and residents are sicker and require more acute and rapid interventions and care. Our members have reached their breaking point. We cannot be expected to hold the healthcare system together any longer under these conditions. We all have a responsibility to protect our patients, clients and residents but we also have a responsibility to ourselves. There is no one else who will do this for us - we need to act when action is needed, and we need to speak even if we feel no one is listening. No matter how small the problem may seem, we need to address it because if not, we are slowly surrendering our ability to define our own roles and our future workplace environments.

## NBNU BOARD OF DIRECTORS

The NBNU Board of Directors continue to do the work of the Union between the AGM and Executive Council meetings. We meet every 6-8 weeks and stay connected via regular email updates and conference calls when needed.

For the period between March until the end of June, it was a huge help to have Maria Richard, 1<sup>st</sup> Vice-President, work in the office. Maria helped to fulfill the need to have an NBNU voice on committees and at many

meetings, not to mention her help with preparing for the CFNU Biennial. Her presence in the office was a pleasant addition and I personally want to thank her for supporting me in my role as your President.

There will be a new addition to the Board in the very near future, with Nancy Arseneau embarking on the next chapter of her journey and Cathy Wall being acclaimed to the 2<sup>nd</sup> Vice-President position. We will be holding elections right after our AGM to fill the position of Unit Representative for the Nurse Managers and Supervisors on the Board of Directors. I encourage all Nurse Managers and Supervisors who may be interested in stepping up to this role to consider putting your name forward when the call for nominations is sent out.

I want to thank the Board of Directors for their dedication and hard work on behalf of all NBNU members. It is our collective effort that makes our work that much more rewarding and meaningful.

## CANADIAN FEDERATION OF NURSES UNIONS

As in past years, the CFNU National Executive Board has been busy and engaged on many campaigns, research projects and advocacy initiatives.

You may have seen through various social media platforms, the most recent federal election campaign that CFNU has embarked on titled "Choose Care, Not Cuts". This campaign was launched in early June to ensure the on-going underfunding of public healthcare is a top-of-mind issue during the federal election this fall.

The campaign and its online tools are designed to make it easy for nurses and members of the public to advocate to their local candidates and MPs of all parties about the

urgent need for the Canadian government to invest in the country's healthcare system. Nurses know first-hand that funding cuts, the privatization of services and chronic understaffing make it impossible for Canadians to get the healthcare they deserve. We must make a commitment to stop underfunding programs which lead to longer wait times, hallway medicine, LTC bed shortage, expensive prescriptions and understaffed units. CFNU has launched a website *StopPretending.ca* which I encourage every NBNU member to visit.

CFNU has made a commitment to build on existing work with young workers and equity-seeking groups by creating an Equity and Inclusion toolkit which was released in June. The toolkit provides resources to all organizations and members of CFNU to grow and expand our advocacy in these areas. The toolkit contains a range of material, including FAQs, an introduction to using an equity lens, a glossary of inclusive language and so much more. You can access the toolkit by visiting their website.

Paula Doucet joins other Union Presidents, leading the way for the "Choose care, not cuts" rally during the CFNU Biennial.

In partnership with the University of Regina, CFNU has embarked on the first anonymous Canada-wide survey of Occupational Stress Injuries (OSI's) in nurses. To date there has been no national standardized survey data available on the prevalence of OSI's among nurses, nor have there been any national attempts to identify risk factors to help inform programs needed to prevent and respond to injuries.

I would encourage all NBNU members to take the time to complete this very valuable survey. Change starts with participation. By participating, you are supporting both yourself and your colleagues to provide evidence that can inform appropriate resources for supporting nurses' mental health. The deadline to participate is September 30, 2019.

In July, I attended the Council of Federations in Saskatoon, SK with the other Canadian nurses union presidents and Premiers from across the country. CFNU hosted a successful breakfast during the Premiers Meetings as 10 of the 12 Premiers attended the breakfast meeting. It focused on violence in healthcare, the causes and the solutions for a pathway forward. We heard from three experts who delivered information, research and steps to take for safer workplaces. Violence in healthcare is something that is dealt with Canada-wide in all facilities.

By all nurses' unions advocating together, there is strength in numbers to achieve positive results and the change that is needed.

During the first week of June, NBNU welcomed close to 900 nurses from across Canada, and even internationally, to Fredericton for the 2019 CFNU Biennial Convention. It had been 20 years since NBNU hosted this event, and during that time, it has grown from approximately 200 attendees in 1999, to close to 1000 in 2019.

The weeklong event was jam-packed with education, presentations, guest speakers, awards, panel discussions and much more. We were proud to host a Maritime Kitchen Party for our guests, as well as give some the opportunity to visit Kings Landing and learn some NB loyalist history.

As much as the Biennial is an ideal opportunity for networking and socializing, the primary purpose is to educate and engage activists in the work being done at the national and international level and how that affects us at the provincial level. Some of the big conversation items this year were about nurses taking the lead on putting an end to workplace violence and climate change. Of course, workload, burnout, working short, the fight to ban for profit plasma and the need for a national Pharmacare program were discussed at length as well.

Overall, the Biennial was a huge success and that is in part due to the long hours put in by the NBNU team of volunteers, staff and Board. Without the commitment of everyone involved we couldn't have showcased New Brunswick the way we did. I would also like

to express a special thank you and recognition to Sarah Bonnar for her devotion to this event. Her attention to the smallest of details made it a huge success. I wish the Saskatchewan Union of Nurses much luck with the planning of the 2021 CFNU Biennial and here's to NBNU hosting again in another 20 years!

## PHARMACARE

The final report of the Advisory Council on the Implementation of National Pharmacare, issued on June 12, 2019, strongly recommended an end to the current costly dysfunctional patchwork system across Canada. This is a victory for all Canadians – but our work is not quite over yet.

The ball is now in the Trudeau government's court to make this a federal election priority and to move as fast as possible toward full implementation.

CFNU and CLC have been at the forefront of this fight for decades, and it is within grasp, but we as nurses cannot back down now. We intricately understand the consequences of poor drug coverage or accessibility. In preparation for the federal election this fall, make sure you advocate for a public universal Pharmacare plan with a comprehensive research-based formulary and nothing less when potential MPs come knocking on your door looking for your support.

Paula Doucet and 1<sup>st</sup> VP Maria Richard speak to reporters alongside fellow activists at a NBNU Violence Prevention rally in Moncton.

## VIOLENCE PREVENTION

Often, I have been asked why NBNU Board Members participate in the Day of Mourning ceremonies across the province. April 28 is observed each year since the passing of the *Workers Mourning Day Act* by Parliament in 1991. It commemorates working people who have been killed, injured or suffered illness from workplace hazards and occupational exposures. We realize healthcare is different from most occupations when it comes to protecting workers from dangers of their work. When people enter the healthcare system, it is us, the nurses, that are there to help at potentially the most stressful time in their lives. Emotions such as fear, loss, grief and loss of control take over, which can possibly lead to acts of physical, verbal or emotional violence.

This, in part, can explain why injuries to healthcare workers are so high compared to most other occupations. We know healthcare workers lost-time claims and no-lost-time claims have been increasing. All categories of injury – exposure, musculoskeletal injury, slip and falls, and of course workplace violence are on the rise. Changes to the Occupational Health & Safety legislation now brings NB up to par with the rest of

Canada in recognizing that workplace violence is a workplace hazard. As a result, we anticipate reporting and claims of workplace violence will also increase exponentially.

We know from the research and data collected by NBNU this past year, the number of violent incidents, code white calls and police involvement required at our healthcare facilities are alarmingly high. What we also know is that for the number of incidents reported, there are many that are not, and that is troublesome. We need to change the mindset and culture that violence is “*just part of the job*” – it isn’t, nor should we remain silent about it.

There have been incidents that have hit the media this year where NBNU members have been physically assaulted which have resulted in criminal charges being laid against the perpetrators. Sadly, we know there are many other NBNU members who don’t report incidents of violence, or quite possibly don’t have charges laid against their assailant. The only way we will eliminate violence is to continue to talk about it openly and publicly. Everyone deserves to go to work and not only feel safe but be safe.

## NURSING RESOURCE STRATEGY

A Nursing Resource Strategy Steering Committee was established in December 2017, with a mandate to develop a 10-year nursing resource strategy to address the nursing shortage our province is facing. The members of the committee were required to provide direction to working group members in the development of an action plan which was presented to the government for approval.

Four main pillars were identified to be the priorities of the committee:

- Promotion of the RN profession in New Brunswick
- Enhancement of nursing education in New Brunswick
- Recruitment of internationally educated nurses
- Enhancement of RN employment and work-life balance

Many action items fall under these four categories and while it may not be the “quick fix” to the current nursing shortage crisis, it provides a roadmap for employers, government, universities and other stakeholders to follow. There are key performance indicators to monitor the progress of each implemented action of the plan, and the steering committee will continue to meet quarterly to monitor and update the progress.

While this committee touches on all aspects of the nursing profession in the province of New Brunswick, the New Brunswick Association of Nursing Homes (NBANH) has also embarked on a recruitment and retention steering committee of its own to address the shortfalls the LTC sector in New Brunswick. The NBANH has struck a partnership with Omni College in Vancouver for the recruitment of internationally educated nurses (IENs). Recently 51 IENs have been hired in nursing homes across the province. Some are hired in PSW or LPN positions until they complete the necessary educational upgrades to meet the requirements for RNs in New Brunswick.

Much work and dedication has gone into this by the NBANH, as their nursing home members had upwards of 250 vacancies last fall. We can all appreciate that inside a small nursing home, missing one or two staff has huge impacts not only to the residents, but for the staff as well. Our involvement on this committee will continue and we will always advocate for the important role of the Registered Nurse in the LTC sector.

Following extensive on-going research, we are preparing to release a report regarding the long-term care sector in our province. The report will draw on a broad review of academic research, polling, focus groups, workload and staffing reports, and case studies of nursing homes in New Brunswick. This is a project that has been long overdue. It has been a work in progress to go through all the information that we have obtained through Right to Information (RTI) requests, not to mention the countless interviews by our research officer with key people in the LTC sector, including some of our own members. We are hopeful to have this publication ready for release by early 2020.

## CLOSING

There are many things our Union is doing well, and there are things we need to improve upon. We have made positive progress in many areas especially when it comes to communicating with local presidents, executives and members. We have heard the request for more frequent communication following the AGM in 2018, and we incorporated the monthly electronic newsletter – *Nursing Matters*. That said, communication is a two-way interaction and I want to make it easy for you to come forward with constructive ideas to make our Union stronger and to help me lead the charge to effectively represent Registered nurses and Nurse Practitioners today and into the future. We anticipate making changes to our website and the way we utilize technology to engage with members more effectively with a goal of keeping them informed and engaged which will help strengthen our Union as a whole.

As we celebrate 45 years of strength and solidarity this year, I ask each of you to take a moment to reflect back on when you started your first job as a Registered Nurse, regardless if that was this year, five years, 15 years or more than 30 years ago. Your strength, your resiliency and commitment have helped shape NBNU – together we are stronger!

I could not be happier or prouder to be your President and I look forward to the next year of building momentum within our membership to continue to be engaged, involved and informed. We can take this interest in our Union and move it toward empowered action so that nurses can achieve the success and recognition we all deserve.

In Solidarity,

Paula Doucet, RN  
President

*"Life doesn't get easier or more forgiving; we get stronger and more resilient" -Dr. Steve Maraboli*

## HAPPY RETIREMENT NANCY!

On behalf of the NBNU Board of Directors and staff, we wish a long-time union member, social activist and labour leader a long, happy and healthy retirement. Your devotion, commitment and passion for social justice will be missed. As you embark on your next adventure with André, your children and grand-babies, know that we will all miss you.

*"Remember that positions come and go, but friendships are forever."*

# This election, share the story.

We all know that funding cuts, understaffing and privatization make it impossible for Canadians to get the care we all deserve. Every day, our amazing and dedicated nurses, doctors and health care workers give all they can with what they're given. But it's time we stopped pretending our health care system isn't in need of an upgrade. It's time to choose care over cuts.

# EXECUTIVE DIRECTOR'S REPORT

## BY MATT HILTZ

### NEGOTIATIONS UPDATE

The issues facing registered nurses in New Brunswick are complex and short-term solutions are proving difficult to come by. NBNU has been involved with other stakeholders to work toward long-term solutions to better the overall working conditions of our members.

NBNU negotiating teams are not optimistic that a deal will be reached in 2019 for any of our groups at the table. Given the current treatment of our CUPE sisters and brothers at the nursing home bargaining table, coupled with the fact that for NBNU, both sides could not find mutual dates for more meetings in July and August for any of the groups, despite exploring half-day and weekend sessions. While we can confirm that each of our employers are fully engaged in the bargaining process, our optimism for a resolution is wavering.

In 2019 thus far, we have had nine days of bargaining for Part III, four days for Nurse Managers and Nurse Supervisors and eight days for Nursing Homes. Bargaining resumed on August 27 for Nursing Homes, with nine days scheduled in 2019; Nurse Managers and Nurse Supervisors bargaining resumes September 12, with eight scheduled days; and Part III begins on September 23, with 11 scheduled days.

Of interest, PEINU signed a new collective agreement on June 11, 2019, for 2018-21; NSNU had an arbitrated award which spans 2016-20; and RNUNL ratified a tentative agreement on May 3, 2019, which expires on June 30, 2020. You can be assured that all negotiating teams believe that improvements to working conditions and competitive wages are necessary in this round.

### EM/ANB UPDATE

In summer 2019, we placed a priority on surveying our members, since at that time, we were approximately 18 months post-transfer of RNs to the new regional health authority. We wanted to hear more from members about how the process was going as we were told that EM/ANB Inc. would be making incremental changes to EMP operations based on what it continued to learn from the transfer agreement.

We encourage our local presidents to continue to keep their LROs informed of any potential changes that may impact the care of your clients.

### HYBRID NURSING HOMES

As of November 9, 2019, you will see five Horizon long-term care facilities, under Part III of the *Public Service Labour Relations Act*, convert to nursing homes, under the

Matt Hiltz

*Industrial Relations Act*. NBNU members remaining at White Rapids Manor, Wauklehegan Manor, W.G. Bishop Nursing Home, Fundy Nursing Home and Nashwaak Villa Inc., after that date, will remain NBNU members. However, they will be covered under the NBNU nursing home collective agreement. NBNU Labour Relations Officers are currently meeting with affected members to explain the differences in the two labour relations regimes.

Matt Hiltz and Paula Doucet meet with Health Minister Ted Flemming and Premier Blaine Higgs.

## STAFFING UPDATE

2019 has brought significant and positive changes to the NBNU office. Lauren Nicholson is admirably handling NBNU communications while Leanne Lagsiar is on maternity leave. Jeff Hull has been hired as Education Research Officer. This past year also saw Lyne Légère depart and Martin Rioux, chase his dreams to the Great White North. We have welcomed two new Labour Relations Officers to the team: Michelle Hall and Louis Léger.

An in-depth organizational review was done in mid-Spring and we are now in the midst of following through with many of the recommendations from the review including filling the newest position of a bookkeeper.

## CONCLUSION

The remainder of 2019, leading into 2020 will be very interesting. We are witnessing our labour colleagues in NB, and across the country, being forced to turn to the courts to prevent unconstitutional legislative attacks on free collective bargaining. Will we be next? I cannot guarantee that this government will not resort to the tactics used elsewhere. What I can guarantee is that your bargaining teams, President and Board of Directors remain committed to working to fix the current workplace issues and wage disparity along with our allies in the rest of the Atlantic provinces.

In Solidarity,

Matt Hiltz  
Executive Director

# 1<sup>ST</sup> VICE-PRESIDENT'S REPORT

BY MARIA RICHARD

I have continued to be involved with several committees this year and have also represented NBNU at several meetings and events, including the PEINU Annual Meeting. I have also given several media interviews on behalf of our Union.

In December 2018, I attended the NANB/NBNU partnership meeting along with their Continuing Competence Program Advisory Committee meeting. In February and June, I, along with Paula, attended the CFNU National Executive Board (NEB) meetings. I also participated in the *Vision for the Future of Nursing in Canada* New Brunswick Roundtable in May and attended two meetings of the Stakeholder Advisory Group for the Paramedic Providing Palliative Care at Home Project. I continue to attend the NBNU Board of Directors meetings every six to eight weeks.

## VIOLENCE IN THE WORKPLACE

On April 1, 2019, New Brunswick became the last province in Canada to enact legislation on violence in the workplace. This was a victory for NBNU as we had been lobbying the government on this issue for more than 10 years. We know that nurses have experienced acts of violence or abuse causing emotional, physical and psychological trauma for decades and rarely are these incidents made public. As we have come to learn, nurses were often not even reporting incidents to their employers. I feel now more than ever, nurses are standing up and saying, 'enough is enough!' I am urging you to help us advocate for a violence-free workplace by reporting ALL incidents of violence, whether verbal, physical or emotional. It is only by raising this issue and speaking out that we will make a permanent change to eliminate violence in the workplace once and for all.

## NATIONAL DAY OF MOURNING

On Sunday, April 28, some NBNU Board of Directors members, including myself, participated in the National Day of Mourning ceremonies around the province. This day is dedicated to those who have died or have been injured as a result of their job. This year, we joined Canada's unions calling on employers and governments to do more to protect workers, as one death in the workplace is one too many.

## NB FEDERATION OF LABOUR (NBFL)

NBFL held its 54<sup>th</sup> annual convention in Edmundston from Sunday, May 26, to Wednesday, May 29, 2019. NBFL is New Brunswick's largest central labour body with over 35,000 members representing over 288 local unions from both the public and private sectors. The theme of this year's convention was *"The Power is in Your Hands!"* Over 35 resolutions were debated and voted upon, guiding the work of the NBFL over the next two years and delegates discussed strategies to counter attacks on workers. Some of the speakers included our very own Linda Silas from CFNU, Donald LaFleur, the CLC Executive VP and Jan Simpson the newly elected President of the Canadian Union of Postal Workers. There were 105 delegates who attended the meeting and Daniel Légère was acclaimed as President. He brings years of experience to the position, having served as President of CUPE New Brunswick for the past 14 years. Delegates also re-elected Brian Duplessis, of the International Longshoremen's Association, as Secretary-Treasurer. Chris Watson, of CUPE, was elected as 1<sup>st</sup> Vice-President, Kelly C. Way, of CUPE, was elected as 2<sup>nd</sup> Vice-President, Debbie Hollis, of the Canadian Union of Postal Workers, was elected as the Vice-President responsible for Women's Issues

Maria Richard

and Caitlin Shea, of CUPE, as Vice-President responsible for Young Workers. Both Paula and I will remain on the NBFL Executive Council as Vice-Presidents along with other representatives.

## CFNU BIENNIAL

From June 3 to 7, NBNU had the honor of hosting CFNU's 19<sup>th</sup> Biennial Convention in Fredericton. I got to experience first-hand the dedication of NBNU staff, volunteers, the Board and the NBNU delegation who led the charge and came together to create a wonderful event. Everyone worked hard and showed participants from across the country and beyond our New Brunswick hospitality. I feel the success of the Biennial was greatly in part thanks to you.

## EDUCATIONAL FINANCIAL ASSISTANCE COMMITTEE

In 2019, we changed the opportunity for members to submit their funding request for the Educational Financial Assistance Fund for Nurses, Part III and Nurse Managers and Supervisors groups from two to four times a year.

The Committee met in January, April, June and will meet again in October to process and evaluate the submissions. A total of 474 applications were approved and

474 applications were approved & \$495,996.80 was disbursed in the 2018-2019 fiscal year

---

\$495,996.80 was disbursed in the 2018-2019 fiscal year. This fund of \$500,000 is set up through the Collective Agreements to help nurses financially further their education or for them to attend conferences and workshops that are pertinent to their profession. It covers the cost of books, tuition and registration fees for courses, conferences or workshops. Official receipts are required, and forms can be obtained from the NBNU website. Please be mindful of deadline dates and ensure that the form is completed properly, and the appropriate receipts are included. For more details on this fund, you can find information on the NBNU website, you can contact me, or your unit representatives for nurses, Part III, or Nurse Managers and Supervisors.

### CONCLUSION

When I look back on this past year, I think about how fast it has flown by! I can't stop thinking about where we will be in another year with important issues that we continue to advocate for, such as retention and recruitment, violence-free workplaces and Pharmacare to name a few. We have certainly made strides in some of these areas but there continues to be lots of hard work ahead. We can't stop the momentum and I know NBNU will be there 100% to continue to advocate for its members.

I had the opportunity to work in the provincial office from March 11 to June 28 this year and it has given me the chance to see and be part of the daily work of the

Union. It has also permitted me to witness first-hand the commitment the NBNU staff have toward us, the members. No matter the staff position, they are always working toward the best possible outcome for the members and our organization. Thank you for allowing me the opportunity to be part of your daily lives.

It has been an honor serving as your 1<sup>st</sup> vice-president for the past three years. I love my role as your 1<sup>st</sup> VP because of you, the members. You make my responsibilities and duties meaningful and fulfilling. I thank you for allowing me to be one of the many voices as part of the leadership team to speak up on your behalf when it matters most. I continue to strive to listen more and speak less (those of you that know me, know that this is not an easy task for me) and it is with each interaction and conversation I have that I grow as a person and as your 1<sup>st</sup> VP. Thank you for all that you do every day to make a difference in your clients, patients and residents' lives.

I look forward to seeing and talking to you at our October AGM. Thank you for the strength that you have shown and that you will continue to show, as together, we will get through rough times ahead in labour and healthcare in this province and across Canada.

On that note, I will leave you with this quote: *"Resilience is the ability to cope with the adversities of life, transforming pain into a driving force to surpass oneself and come out strengthened. A resilient person understands that she is the architect of her own destiny."* - Proverb

# 2<sup>ND</sup> VICE-PRESIDENT'S REPORT

## BY NANCY ARSENEAU

As 2<sup>nd</sup> Vice-President, it has been my privilege to work on several initiatives and committees on your behalf.

We all know the fight for social justice is not a new one. It is not a fight with a set result, but rather one that requires vigilance and engagement from all of us. Social justice is not something you do once and then forget. It is important to celebrate the progress we've achieved together, but at the same time, we know our work is far from over.

Besides participating in Board meetings, negotiation and committee meetings, I took part in the NB Federation of Labour Convention in Edmundston on May 26-29, and the 2019 CFNU Biennial Convention in Fredericton from June 3 to 7.

I also participated at several community events such as the Day of Mourning, Labour Day parade, and several CUPE and USW rallies.

### COMMON FRONT FOR SOCIAL JUSTICE

The New Brunswick Common Front for Social Justice is one of the most important anti-poverty organizations. It is made up of community, union, and religious groups as well as several hundred individuals.

Its efforts are focused on five major issues:

- Social Assistance
- Advocating for Workers
- Pay Equity
- Employment Insurance
- Protecting Social Programs

On May 25, 2019, the Citizens' Forum on Social Inequalities and the Common Front's AGM were held in Moncton.

Nancy Arseneau

New Brunswick is a wealthy province, but its wealth is poorly distributed, with excessive income in the hands of a few ultra-rich people. As a result, many people live in extreme poverty and atrocious living conditions, which greatly reduce their life expectancy and their chances of getting out of poverty.

The percentage of children from the poorest families who attend post-secondary education is lower than that of the wealthiest families. This has an impact on their future income, as it has been shown that the higher the level of education, the better our chances of earning a high income. Hence, people who are born into a poor family are likely to remain poor.

Another aspect of income disparity worth noting is the impact of wage gaps on life expectancy. An analysis of Statistics Canada data between 1991 and 2006, shows that Canadian men and women whose income is in the lowest quintile (or bottom 20% of income) had a much shorter life expectancy than those in the highest quintile. In addition, men in general have a higher mortality rate than women at all levels of income. These inequalities have an even greater effect on the lives of women, immigrants, and non-Caucasians, who suffer more discrimination, which in turn causes and aggravates poverty and its consequences.

Nancy Arseneau and Paula Doucet stand in solidarity with the United Steelworkers (Local 7085) during their strike action.

It is so important to continue to lobby, to be the voice for others and empower others and future generations.

## COALITION FOR PAY EQUITY

On June 1, 2019, a Pay Equity Forum and the AGM of the New Brunswick Coalition for Pay Equity took place in Moncton. The event was a huge success!

June 19, 2019, marked the 10<sup>th</sup> anniversary of the *Pay Equity Act*, 2009.

The *Pay Equity Act*, 2009 catalyzed efforts in New Brunswick; by imposing pay equity exercises, it made it possible to correct the systemic wage discrimination which has affected many jobs in the public sector primarily or historically held by women. The *Act* applies to the public service, school districts, and hospitals, as well as New Brunswick Crown corporations.

Nancy Arseneau represents NBNU at the annual Day of Mourning event in Bathurst.

The legislation was an important achievement for New Brunswickers. Wage adjustments have amounted to millions of dollars and illustrate the extent of pay discrimination that can exist, even in the public sector.

We must keep working until the *Pay Equity Act* is fully enacted, and it is especially important to extend legislation to the private sector, which employs 65% of women in the labour market. Pay equity is a human right. We will continue our efforts until this right is applied to every person working in jobs traditionally or predominantly held by women.

*Pay equity is equal pay for work of equal value. Pay equity seeks to ensure that jobs traditionally done by women which are of comparable value to jobs traditionally done by men, for the same employer, be paid at the same rate.*

## CANADIAN LABOUR CONGRESS (CLC)

NBNU had a small group of five members attend the Atlantic Region CLC Spring Labour Education School at St. FX University in Antigonish N.S., June. 22- 26 2019.

It was a great opportunity for us to network with different unions and to be inspired. The education sessions were very valuable for our work as union activists. For me, labour education builds solidarity and knowledge. I participated in the *Domestic Violence at Work* session and gained a deeper understanding of the dynamics of domestic violence at work and the role of the union and employer in addressing it. I also learned ways to best support members who may be experiencing domestic violence, including how to recognize and respond to the warning.

## CONCLUSION

On October 1, 2019, I will wake up in my new life of retirement, full of undiscovered opportunities and I will have more time to spend with my family, the most important thing in the world to me!

I am a proud Registered Nurse of 35 years. I have dedicated 20+ years to union activism and eight of those years as 2<sup>nd</sup> Vice-President and Board Member.

It is bittersweet to leave but all good things must come to an end. Thank you for your belief in me, your support and your friendship. None of us achieve success in isolation.

I have learned several things along the way, and I want to take a moment to share some of the wisdom I have learned over the years:

- Inspire and empower others.
- Trust your instincts and take risks.
- Doing is learning... mistakes will be made on the way.
- Lead by example, always with respect and integrity.
- Friendships are important.
- Balance work and life.

I wish you all continued success on the roads you choose to travel. I give my best to the staff and the Board of NBNU and I thank you for your dedication and hard work. I am very honoured and proud to have been a member of this well-respected organization.

I am going to miss you all as you have been part of my journey for a long time.

For those who know me well, I am never one to withhold an opinion that I believe needs to be voiced and rest assured that will not end...I will never be far away! Stay strong.

In Solidarity forever,  
Nancy Arseneau, RN

## ANNUAL REPORTS

### NURSES, PART III – COMMUNITY CARE

BY KATHY LEBLANC

As others have shared in their reports, this year has certainly been a busy one. Challenges and victories have touched all aspects of the nursing profession but through it all, we have managed to keep our heads held high. All that said, you can rest assured that NBNU staff and Board are kept informed of the issues when they are reported, and we are here to advocate on your behalf.

### COMMITTEE WORK

Subcommittee work continues and remains steady and it's work that includes discussions, meetings and decisions on subjects like our *Constitution and By-Laws*, education and negotiations. As a new face on the negotiating team this year, I can say with confidence that I have a deeper understanding and appreciation of the work and effort that past negotiation committee members experienced. It is a long and slow process, but it is a great experience to be a part of those important decisions and discussions on behalf of our members. I would encourage members to consider becoming involved in negotiations and gain a better understanding of the process as it is very eye-opening!

### CFNU BIENNIAL

The theme was *LEAD* and to me, it represents each one of us as an individual, a professional, a union member and leaders in our community, as we hold the key to lead and make positive changes.

The Biennial allowed for plenty of networking opportunities with both our members and other nurses across the country during education sessions, rallying and even during bus riding! The educational sessions I attended were on retirement and mental health, advocacy and dynamic speakers offered information that provided many positive take away messages. Discussions were held about what is happening in nursing Canada-wide and even globally, such as mental health, working conditions, health and safety, environment and retirement. The nursing shortage is not just a New Brunswick phenomenon - it is truly a global concern.

During the CFNU Biennial, all Board members worked behind the scenes as volunteers, tasked with anything that needed to be done along with other NBNU members and staff. Bravo to everyone who helped in making it a success! Leadership was the key and we are fortunate to have dedicated leaders.

We are fortunate to have a dedicated Union President, such as Paula. No matter her schedule, she keeps the Board and staff up to date on issues affecting our members. A great leader needs a great team and so whenever you see or talk to a staff person at NBNU, be sure to thank them for all their hard work and dedication. They are a small but mighty team!

### GLOBAL NURSING

Recently, I was asked why are the unions involved with other world issues, such as climate change or Pharmacare? As nurses, we understand the social determinants of health, but ecological determinants of health add another layer. It is true when we hear the statement that our communities are only as healthy as the ecological structure on which lives depend. So why should nurses act now? As leaders in our communities, we

Kathy LeBlanc

need to be advocating for health, not just amongst our members, but for a healthier environment and explain this to our government and business leaders who are able to create the laws and legislation that govern the change we so desperately need. If nurses don't stand up and advocate for change, who will?

### CONCLUSION

I have commented before that as Registered Nurses, we bear an enormous responsibility to the public healthcare system. It's not just about keeping our clients, residents or patients alive and well, it's about being responsible for the quality of our healthcare both locally in our communities and globally. We are also leaders in other areas such as retention and recruitment and our health and safety, to name a few. Many of the decisions being made today (political and unionized) are going to determine how it will affect our healthcare in the future. Stay positive as we navigate through these rough waters. I am optimistic that together in solidarity we will achieve our goals!

I am proud to be a New Brunswick Registered Nurse and thank you for allowing me to represent you at the table.

In Solidarity,  
Kathy LeBlanc, RN

## NURSES, PART III – HOSPITALS

BY NORBERT ROBICHAUD

Greetings. Writing this report is very emotional for me because it is the last report I will write as the representative of nurses in the Part III Bargaining Unit. The term of a unit representative ends when a new collective agreement is signed, and ours is being negotiated in 2019. I sincerely hope a new collective agreement will be ratified before the end of the year!

I will not be running for a second term. Since I am now in my pre-retirement phase, 2020 will probably be the year that marks the end of my career as a nurse. Since fall 1985, barely a year after graduating as a nurse, I was elected vice-president of the Dr. Georges-L.-Dumont Hospital local. Almost 35 years later, I am still active in my Union. The New Brunswick Nurses Union has been like a second family to me. I will miss it enormously.

## NEGOTIATIONS

For the first time in our history, all three negotiating committees will be at the table at the same time, as all collective agreements expired on December 31, 2018. Your three negotiating committees met at the provincial office during the first week of December 2018, to exchange ideas and to join forces.

The negotiating committee for Part III, have met several times to prepare for negotiations. Our first meeting with the employer took place in February 2019. We then had nine days of meetings with the employers. Several other days are planned for October, November, and December 2019.

The discussions have been cordial and the process is moving forward; we have made good progress but still have a lot of work ahead of us.

It goes without saying that the chronic shortage of nurses, numerous hours of overtime, double shifts, an excessively heavy workload, exhaustion, stress, and the

high rate of absenteeism, and many other issues, continue to occupy a prominent place in our discussions. In addition, the violent events of spring 2019 have obviously coloured our discussions. This violence reminds us of the importance of having a collective agreement that emphasizes measures to be taken to ensure that we can work in a safe environment. We must protect nurses' jobs, and it is even more important to protect our health, our safety and our well-being!

This round of negotiations will thus be my third and final round. However, in the current context of the serious lack of nurses, I want to reassure you that your committee will make every possible effort to introduce significant improvements into this collective agreement! It is essential that new initiatives be made to retain experienced nurses. At the same time, we have to continue our efforts to promote our wonderful profession, so that the hiring of new nurses will provide a long-term solution.

For safe and high-quality health services, we all need to take action to take care of our healthcare professionals!

## MEETINGS

Since our last AGM in October 2018, I have attended several meetings and events on your behalf.

For the first time, I had the opportunity to take part in the Canadian Labour Congress Lobby Days on Parliament Hill in Ottawa, on February 25 and 26, 2019. Many union representatives and members of the Canadian Labour Congress (CLC) participated. It was a very interesting experience and gave me a better understanding of the federal political process as I had the chance to meet with a Senator and a Member of Parliament. We discussed plans for universal coverage of medications for all Canadians (Pharmacare), and the precarious condition of pension plans in the private sector, both in the context of the federal election this

Norbert Robichaud

year.

During the first week of June, our provincial Union hosted the Biennial Convention of the Canadian Federation of Nurses Unions. It was a week filled with amazing encounters and meetings in our beautiful provincial capital, Fredericton.

Your Board of Directors met regularly over the past year. The Board also held a number of conference calls in order to deal with important matters. Our provincial president, Paula Doucet, sends us emails on a regular basis to keep members of the Executive up to date. Thank you, Paula!

## EDUCATIONAL ASSISTANCE COMMITTEE

Acting on a motion made at the 2018 AGM, your Educational Assistance Committee for Part III now meets four times rather than twice. This initiative seems to be working well, and it will be discussed further at our AGM in October 2019.

I am looking forward to seeing you at the AGM in October.

In solidarity,  
Norbert Robichaud, RN

## NURSING HOMES

BY RONDA MCCREADY

This year has brought many challenges for those in long-term care (LTC) as we continue to support our CUPE brothers and sisters in their fight for fair wages and improved working conditions which will provide not only better personal situations for them, but hopefully increase recruitment and retention. These factors are critical to be able to provide proper and safe care to our residents. I am optimistic this situation will be resolved but it is taking much longer than hoped for by all, which puts stress on everyone involved. I had the opportunity to join CUPE at their last rally in May and was impressed by their resilience and determination despite the roadblocks.

## FEDERAL ELECTION – LTC

Linda Silas, our CFNU president, spoke at our rally in Fredericton this past June stating that LTC is one of the election priorities we need to speak up about in the upcoming federal election. She explained that LTC needs to be part of Medicare in order to better serve one of our most vulnerable populations. She encouraged us to ask our officials as they start canvassing what their stand is on this topic and for us to help educate them. Who better to speak up than nurses who live the realities every day in a system that is in crisis? Nurses can educate by offering evidence-based research and suggestions on how we can better provide the services and care our seniors need and deserve.

## CONTINUING CARE UPDATE

To date, I have attended two New Brunswick Continuing Care Safety Association

(NBCCSA) meetings where we are looking at ways to help reduce injury and improve workplaces. They are rolling out more gentle persuasion techniques (GPT) classes in the fall and helping to prepare homes for the new risk assessments mandated by WorkSafeNB to meet the Occupational Health and Safety violence legislative requirements.

## HEALTH BENEFITS COMMITTEE

We have just resumed our Health Benefits meetings which have had an overhaul of the committee's terms of reference. Our last meeting saw our rates for Health get raised by 4% with no increases for Dental. Our retiree plan continues to decline in membership as usage increases creating the need to increase rates by 15%. This plan is self-insured similar to LTD which means as usage increases the rates must increase to maintain benefits.

## EDUCATIONAL ASSISTANCE COMMITTEE

The education committee last met in June with a total of eleven applicants. All were approved apart from two that did not meet the terms of reference criteria. The total dispersed was \$5,858.31. Wound care, palliative care conferences and foot care continue to be popular educational topics.

## PENSION UPDATE

The annual pension report is a review of our pension plan performance for last year. I encourage you to review it and take advantage of NBANH website to look up your pension plan calculator and information. We meet quarterly to review performance and discuss opportunities for

Ronda McCready

investment.

## NEGOTIATIONS

Your negotiation committee has met several times already with the employer's team, and meetings are scheduled right up until December 2019. The progress is slow but steady as each side lays out its requests and we work toward resolutions.

## CONCLUSION

The year so far has been busy with the NB Federation of Labour convention, CFNU Biennial, the CLC Labour School, NBNU Board meetings and various committees but through it all, I continue to be honoured to be your unit representative and will help ensure we promote the role and working conditions of not only LTC Registered Nurses but all Registered Nurses.

In solidarity,  
Ronda McCready, RN

## NURSE MANAGERS AND NURSE SUPERVISORS

BY CATHY WALL

Here we are, another year has passed and so much has been accomplished, yet still more work is ahead of us. I continue to represent you in all that I do to ensure that the voice of Nurse Managers and Supervisors is not forgotten. We are truly stronger together thanks to the solidarity of all NBNU members.

## NEGOTIATIONS

Your Nurse Managers and Supervisors negotiation team will have had three meetings at the negotiation table as of September. We have dates set for the fall and the team will continue to bring your issues and concerns forward. While the process can be slow at times and not always easy, be assured that the team will negotiate the best contract possible for all.

## NURSE MANAGERS AND SUPERVISORS WORKLOAD

As I look at my past submissions to the *Parasol*, the issue of workload for our group has been at the forefront and continues to be as problematic as it was five years ago. We continue to hear from the members of increased workloads, the inability to reach deadlines and the issue of overall poor work-life balance.

There are, however, positives. We now have a Letter of intent Re: Safe Professional Practice and Working Environment Assessment. This letter of intent outlines that when the Professional Practice Committee members cannot come to an agreed resolution to a matter brought to them, they can then forward their issues and

observations to the Vice President of Clinical (or delegate) or Chief Operating Officer (or delegate) of the RHA. At that time, the VP of Clinical or COO have 30 days to reply with their decision on the matter.

It is very important for all locals to have Professional Practice Committees set up in their workplace because if a matter cannot be resolved at the committee level and sits idle with no actions your concerns will not be heard. It is so important that an outlet is in place to hear your problems regarding workload, safety in the workplace and other ongoing issues.

We now also have a Nurse Managers and Supervisors Work Situation Report. This is another mechanism to report workload and safety issues of this bargaining group. Members must complete these reports, despite what our workload throws at us. Some of the reasons that we may not be able to complete them in a timely manner may be due to a departmental emergency that must have our attention immediately, completing tasks that were traditionally completed by support programs but have been now assigned to us, or the need for us to work in our clinical areas due to staffing shortage. It is imperative that regardless of the situation that may arise, that we take the time to fill out these forms if we want to see change.

## EDUCATIONAL ASSISTANCE COMMITTEE

The Committee continues to receive multiple applications on an annual basis. Please ensure you submit your applications to help cover the costs for assistance and continued education and conferences you may be attending. Please see the NBNU website for forms and deadlines.

Cathy Wall

## CONCLUSION

The labour atmosphere in New Brunswick as of late may seem unsettling, but now, more than ever, we must stand together as one. Unionized RNs in all bargaining groups need to stand side by side with each other. Together we are stronger and together we will advocate for the change needed to ensure safe working environments, positive patient outcomes and continued quality patient care.

In Solidarity,  
Cathy Wall, RN

# ANNUAL MEETING OPERATIONS COMMITTEE REPORT

This year's report comes from brand new committee members, Joe Carr, Catherine Davies, Diedra Hare, Paula Doucet, ex-officio, Matt Hiltz, ex-officio and Sarah Bonnar, executive assistant. This year the committee held two conference calls to review the mandate and expectations of the committee, review resolutions and constitution changes submitted, as well as review nominations that came in for the 1<sup>st</sup> and 2<sup>nd</sup> VP positions.

Eleven resolutions were submitted prior to the deadline. Upon review, one resolution was withdrawn, and two resolutions were combined. In both instances, the submitters were contacted, and the concerns of the committee were explained. Therefore, nine resolutions are published in the *Parasol* for debate at the AGM.

Also received from the NBNU Board of Directors was substantive proposed changes to

the *Constitution and By-Laws*. Many of the proposed changes are considered "housekeeping" while others proposed changes relate to governance. You will find in detail in this *Parasol* the proposed changes. The committee received this submission, sought clarification on some proposed changes and are comfortable with presenting these for discussion at the AGM.

This year's elections to be held at the AGM are for the positions of 1<sup>st</sup> and 2<sup>nd</sup> Vice-Presidents. At the time of closure for nomination there was one nominee for the position of 1<sup>st</sup> VP and the committee has confirmed that Maria Richard has been acclaimed as 1<sup>st</sup> VP for another term. Congratulations Maria!

There were two nominations for the position of 2<sup>nd</sup> VP, however one nominee did not meet the required criteria as set out in Article 11.01 (b) of the NBNU Constitution, "To be eligible

for nomination to the office of President, Vice-President and 2<sup>nd</sup> Vice-President, a member must have previously served as an elected member of the Executive Council." The member was contacted and notified of the eligibility criteria and the committee rejected the nomination. The other nominee met criteria and the committee congratulates Cathy Wall as 2<sup>nd</sup> VP. With both VP positions being acclaimed, there won't be any elections held during the AGM this year.

On behalf of the Annual Meeting Operations Committee, we look forward to seeing you at the AGM in October and anticipate good healthy debate on the floor.

In Solidarity,  
Annual Meeting Operations Committee

## RESOLUTIONS

### TO BE VOTED ON AT THE ANNUAL GENERAL MEETING

#### RESOLUTION #1 - PENSION & LTD BENEFITS

Submitted by: Heidi Paris and Amy Dalley

**WHEREAS** pension & LTD benefits are valuable to all members;

**WHEREAS** pension & LTD benefits are difficult benefits to understand;

**WHEREAS** members and local executive require more education and support than the local executive can provide;

**BE IT RESOLVED THAT** NBNU urge the plan administrator (Vestcor) to provide accurate, concise, transparent education regarding pension & LTD processes. Including, however, not limited to, annual investments, access, portability, and process of negotiation of pension through newsletters, emails, NBNU website and annual education sessions.

#### RESOLUTION #2 - MINORITY GROUPS

Submitted by: Heidi Paris and Amy Dalley

**WHEREAS** discrimination of minority groups is prevalent in society resulting in barriers in delivering competent, proficient, well advised, prudent care;

**WHEREAS** nurses have limited knowledge of ethnicity models of care, religious practices, and preferred form of address;

**BE IT RESOLVED THAT** NBNU advocate for the three (3) provincial health authorities to provide training and tools to members to equip them to immediately speak out against discrimination of minority groups in both the workplace and community as well as the knowledge base to provide optimal care of the clients' choice.

## RESOLUTION #3 - WORKPLACE VIOLENCE

Submitted by: the NBNU Board of Directors

**WHEREAS** a 2017 NBNU survey of approx. 1,700 RNs found that over 1,000 of them, or 63.3%, experienced a violent encounter in their workplace over the last 12 months;

**WHEREAS** national data shows the number of violence-related accepted lost-time injuries for frontline healthcare workers increased by close to 66% between 2006 and 2015;

**WHEREAS** provincial data shows accepted lost-time injury claims due to workplace violence are higher in healthcare than in mining, manufacturing or construction;

**WHEREAS** violence in our healthcare system undermines the quality of care received by patients;

**WHEREAS** healthcare workers are employed to provide care for patients, not to be subjected to violence, and an unsafe workplace is unsafe for everyone, patients and providers alike;

**WHEREAS** 8,743 healthcare workers from coast-to-coast have signed House of Commons e-petition 1902 calling on the Minister of Health to develop a pan-Canadian prevention strategy to address growing incidents of violence against healthcare workers;

**WHEREAS** the House of Commons Standing Committee on Health passed a motion to study the violence faced by healthcare workers in hospitals, long-term care facilities and in-home care settings in order to develop recommendations on actions that the federal government can take, in partnership with the provinces and territories, to improve violence prevention in healthcare;

**WHEREAS** CFNU supported private members Bill C-434 *An Act to amend the Criminal Code (assault against a healthcare sector worker)*;

**BE IT RESOLVED THAT** NBNU along with CFNU, and its member organizations, call on Health Canada to develop a pan-Canadian prevention strategy to address the growing incidents of violence against healthcare workers;

**BE IT FURTHER RESOLVED THAT** NBNU along with CFNU, and its member organizations, call for legislative measures to hold both the employer and the perpetrator of workplace violence, accountable for their actions or inaction.

## RESOLUTION #4 - PTSD LEGISLATIVE FRAMEWORKS MUST INCLUDE NURSES AND HEALTHCARE WORKERS

Submitted by: the NBNU Board of Directors

**WHEREAS** Bill C-211, *An Act respecting a federal framework on post-traumatic stress disorder*, was passed without including nurses or other workers;

**WHEREAS** the Senate of Canada wrote a recommendation to include healthcare workers in the implementation of the federal framework;

**WHEREAS** Ontario and Nova Scotia now include nurses in presumptive PTSD legislation;

**WHEREAS** Manitoba and PEI passed presumptive PTSD legislation that includes all workers, and the Newfoundland Labrador government has introduced similar legislation to come into effect July 1, 2019;

**WHEREAS** Saskatchewan passed presumptive legislation that includes all workers suffering from psychological injuries (including PTSD);

**BE IT RESOLVED THAT** NBNU along with CFNU and its Member Organizations continue to lobby every level of government, including at the federal level, to include nurses and all workers in the legislative framework around the prevention of PTSD and presumptive coverage for PTSD.

## RESOLUTION #5 - HOMECARE AND LTC FUNDING

Submitted by: the NBNU Board of Directors

**WHEREAS** homecare and long-term care are not covered by the *Canada Health Act* even though they are integral pieces of the overall healthcare system;

**WHEREAS** nearly 20% of New Brunswick's population is over the age of 65 whereas about 17% of the overall population in Canada are seniors. New Brunswick has the highest proportion of its population over the age of 65 compared to other provinces. Projections indicate that by 2037, the proportion of New Brunswick's population that will be over the age of 65 will have increased to a greater extent than any other province and Canada overall;

**WHEREAS** 91% of Canadians feel all older Canadians should be guaranteed the same standards for care, regardless of where they live or how much money they have;

**WHEREAS** most Canadians express the desire to 'age in place' and governments across Canada have made efforts to ensure Canadians receive more of their healthcare needs at home;

**WHEREAS** Canada has also witnessed a large growth in the number of long-term care residents;

**WHEREAS** the acuity and complexity of care provided to both homecare clients and long-term care residents has greatly increased over the past ten years;

**WHEREAS** nurses and other care providers in homecare and long-term care often lack the time and resources to provide optimal quality care;

**WHEREAS** short-staffing in long-term care facilities is associated with reduced quality of care and an increased potential for violence;

**WHEREAS** 94% of Canadians feel that long-term care should focus on making sure seniors live with dignity, not on private profit, and 83% of Canadians agree that Canada is failing to provide sufficient public long-term care options for seniors;

**BE IT RESOLVED THAT** NBNU along with CFNU and its member organizations lobby all levels of government to increase and stabilize funding for homecare (including palliative homecare) and long-term care, ensuring clients and residents receive high quality care, and care providers are given adequate time and resources to provide it.

## RESOLUTION #6 - NURSING & CLIMATE CHANGE

Submitted by: the NBNU Board of Directors & Amy Dalley and Heidi Paris

**WHEREAS** climate change is a major deterrent of health;

**WHEREAS** climate change can have severe effects on human health through air quality, temperature-related illness, water-related illness, food safety, mental health and well-being;

**WHEREAS** the CFNU's Nursing and Climate Change discussion paper for Convention 2019 finds that climate change is a global threat to humans and the ecosystems that support our life on Earth;

**WHEREAS** nurses must be knowledgeable about how to anticipate and respond and take action to address the health impacts of climate change;

**WHEREAS** climate change will result in many environmental changes including extreme heat, air pollution, water contamination, rising sea levels and more extreme weather events that will have adverse events on the health of people in Canada;

**WHEREAS** Canada is already experiencing the dramatic environmental effects of climate change with examples such as the British Columbia and Albertan forest fires in 2016, 2017 and 2018, extreme flooding in New Brunswick, deadly heatwaves in Eastern Canada and Canadians are already experiencing the symptoms of “Eco-anxiety” as we contemplate a dire environmental future and as we witness our landscapes and environments change;

**BE IT RESOLVED THAT** NBNU along with CFNU, and its member organizations, support sustainable healthcare practices in hospitals and community facilities to reduce greenhouse gas emissions in healthcare settings and advocate for low or no cost opportunities for an eco-friendly workplace by seeking enhanced recycling solutions, reducing single-use plastic items replacing them with more environmentally friendly versions;

**BE IT FURTHER RESOLVED THAT** NBNU along with CFNU, and its member organizations, engage with community actors and allies, such as the Canadian Labour Congress, in initiatives and campaigns that raise the public’s awareness about the serious health implications of climate change;

**BE IT FURTHER RESOLVED THAT** NBNU along with CFNU, and its member organizations, call on the federal and provincial governments to undertake the necessary policies to meet Canada’s obligations under the auspices of the United Nations Framework Convention on Climate Change (the Paris Agreement), including scientifically-based and enforceable reductions in greenhouse gas emissions causing climate change.

**RESOLUTION #7 - NATIONAL  
NURSING SHORTAGE**  
Submitted by: the NBNU  
Board of Directors

**WHEREAS** provinces across Canada continue to cope with aging populations and an increase in healthcare services;

**WHEREAS** global evidence links lower nurse staffing and skill mix to adverse patient outcomes;

**WHEREAS** research indicates that the total economic burden of adverse care events in Canada can surpass \$1 billion annually;

**WHEREAS** staff shortages result in regular weekly paid and unpaid overtime, costing the healthcare system almost \$1 billion annually (2016);

**WHEREAS** staffing shortages and increased workload lead to negative impacts on staff, such as burnout and compassion fatigue;

**WHEREAS** research indicates Canada is in the midst of an increasingly concerning nursing shortage;

**BE IT RESOLVED THAT** NBNU along with CFNU and its member organizations lobby governments across Canada to take demonstrable steps to strengthen its health human resources planning, and effectively address Canada’s national nursing shortage through hiring increased numbers of nurses to meet demand.

## RESOLUTION #8 - SUPPORTING NURSING PRACTICUM STUDENTS

Submitted by: the NBNU Board of Directors

**WHEREAS** in recent years, concerns around the exploitation of interns in Canada and elsewhere have become more pronounced with an increase in public discussion and media reports;

**WHEREAS** the Canadian Nursing Students Association's *Nursing Students Bill of Rights and Responsibilities* calls for "supportive, educational and safe teaching and learning environments";

**WHEREAS** baccalaureate nursing students across the country complete internships as a part of their degree programs, often working full-time during their last semester for periods ranging from two to four months;

**WHEREAS** research shows that student nurses face significant financial, emotional, and psychological stress related to their final clinical placement related to deficits in time, finances, staffing adequacy, combined with high levels of patient acuity, as well as workplace bullying;

**WHEREAS** unpaid practicums are likely to place greater stress on disadvantaged nursing students (minority applicants, those without sufficient financial resources, single mothers, etc.) who by any measure already face the greatest challenges both in terms of time and money;

**WHEREAS** nursing students in their final fourth-year practicum are likely to be providing valuable contributions to their units or facilities, justifying compensation;

**BE IT RESOLVED THAT** NBNU along with the CFNU, and its member organizations, as part of our commitment to equity, as well towards encouraging the sustainable development of our nursing workforce, will explore measures to better support nursing students during nursing placements.

## RESOLUTION #9 - PHARMACARE

Submitted by: the NBNU Board of Directors

**WHEREAS** the United Nations and World Health Organization have declared that all countries should provide access to all necessary medicines to their population, and Canada remains the only country with a universal healthcare system that does not include coverage for prescription medications;

**WHEREAS** the Parliamentary Budget Officer has found that a universal, public pharmacare program would save a minimum of \$4.2 billion in healthcare dollars per year;

**WHEREAS** the CFNU *Body Count* report from 2018 found that up to 640 Canadians with ischemic heart disease die prematurely every year because of a lack of pharmacare, and up to 70,000 Canadians 55+ suffer avoidable deterioration in their health status every year because of a lack of pharmacare;

**WHEREAS** the CFNU's *Big Money Club* report from 2019 revealed the deep-pocketed interests, including Big Pharma, Big Insurance and billionaires, have been bankrolling a campaign to prevent pharmacare from coming to Canada;

**WHEREAS** Canada's nurses have campaigned for nearly 30 years for the establishment of a national Pharmacare program for Canada;

**BE IT RESOLVED THAT** NBNU along with CFNU, and its member organizations, recommit to advocate to provincial and federal governments for a national Pharmacare program;

**BE IT FURTHER RESOLVED THAT** NBNU along with CFNU, and its member organizations, campaign to encourage every major political party to include national Pharmacare in their platform during the 2019 federal election.

# NBNU CONSTITUTION & BY-LAWS PROPOSED CHANGES

## GREETINGS MEMBERS,

As part of NBNU's current strategic action plan, your Board of Directors seeks to "ensure our governance structure, processes and practices support a sustainable organization". The following document represents a thorough re-working of your *Constitution and By-Laws*. The changes are being proposed for either housekeeping reasons or for governance reasons. In the document, you will see 3 charts: 1) housekeeping changes, 2) proposed language changes, 3) proposed new language to be added to the *Constitution and By-Laws*.

The first 2 charts have the following headings: 1) current language, 2) proposed change and 3) rationale.

Housekeeping changes are identified under the "Rationale" heading and involve non-substantive changes, either to the language or to the organization of the Constitution. These changes are being proposed to make the *Constitution and By-Laws* more reader-friendly.

Governance or substantive changes involve changes to the *Constitution and By-Laws* that will change how NBNU operates. For example, a major proposal in this document stems from an external review by the Canadian Labour Congress (CLC), which exposed a major issue with the financial accountability of NBNU locals. Currently, NBNU has no recourse to recover "orphaned" local funds in the event the local signing officers are no longer active. As such, a "chartering" system was recommended to NBNU, whereby it is clear that all property belongs to NBNU members through provincial office. There are checks and balances to ensure that in the future, bank accounts will not be lost.

Please review the following chart and compare the proposed changes against the current *Constitution and By-Laws*. If you have any questions, please do not hesitate to ask. Thank you.

In Solidarity,  
NBNU Board of Directors

## PROPOSED NEW LANGUAGE TO BE ADDED TO THE CONSTITUTION & BY-LAWS

- vi. Refusing or neglecting to conform to this Constitution or the policies of the Union as set forth by the Annual General Meeting.

### (c) Procedure for Revocation

The Charter of any Local shall not be revoked until the Local has been given proper notice of the charges against it and an opportunity to be heard in its defence. The Local shall be given at least ten (10) days to prepare its defence after receiving notice from the President or Executive Director or of the Union of any charges. The hearing will be conducted before a Committee of the Executive Council ("the Committee"). A majority vote of the committee shall be required for a finding of suspension or revocation of a Charter or any other penalty that may be imposed. In the event penalties other than suspension or revocation are imposed, such findings shall state that if the Local fails to comply with the findings or to appeal within the allotted time, its Charter will be automatically revoked. The findings shall be published to all Locals.

### (d) Appeal of Revocation

A Local may appeal the findings of the Committee to the next Annual Meeting by giving written notice to the President or Executive Director of the Union within thirty (30) days after the publication of the findings of the committee of the Union. No findings shall become effective pending the disposition of the appeal.

### (e) Temporary Administration

Should there be a final decision revoking the Charter of a Local, the Board of Directors of the Union may temporarily take control of its affairs as may be necessary to guarantee the continuance of the Union and protect its interests.

### (f) Authority, Duties and Obligations of Locals

The authority, duties and obligations of chartered Locals, their officers and members, in addition to those otherwise set forth in the Constitution or in their respective By-laws and rules, shall be:

- i. To represent the members in their respective local relating to Local matters;
- ii. To actively implement all Union programs and carry out the policies established by NBNU;
- iii. To abide by the Constitution and By-laws, the decisions of the Annual Meeting, the Board of Directors and the decisions resulting from the referendum procedure;
- iv. To adopt By-laws and Rules not inconsistent with this Constitution and to repeal, amend, or modify such Rules and Bylaws as may be inconsistent therewith, voluntarily, or at the direction of the Board of Directors, subject to the right of appeal to the Annual Meeting.
- v. To provide for the bonding of Local Officers and other persons who handle Union funds and property;
- vi. To hold Local meetings at such time, place and frequency as the members may decide by vote;
- vii. To hold Local elections by secret ballot with provision of reasonable opportunity for all members to vote in accordance with the By-laws established by the Local and this Constitution;
- viii. To establish a quorum and other rules of conduct of Local meetings;
- ix. Have made an annual audit of the financial records of the Local by competent persons; make available Local financial statements to the membership at least

# CANDIDATES FOR ELECTION

## 1<sup>ST</sup> VICE-PRESIDENT (ELECTED BY ACCLAMATION)

**Maria Richard**  
Beauséjour Community Health, Moncton

- Trustee in Training – CBE SRP Board of Trustees
- Unit Representative for Part III – Community Care (3 terms)
- Member of the Part III Negotiating Committee (2008, 2010 and 2015)
- Member of the Part I (CSN) Negotiating Committee (1998, 2002 and 2005)
- Former member of the Ad-hoc Committee on the Structure of the Negotiating Committee

I have been involved with NBNU, for the last 27 years; as your current 1<sup>st</sup> Vice-President, as the past Part III-Community Care Representative (for 3 terms), as President of the Beauséjour Community Health Local for 21 years and I have been on six different Negotiating Committees. Having held the position as your 1<sup>st</sup> Vice-President since the fall of 2016, I strongly believe that prior experience at the Provincial level and the

Local level is a pre-requirement to fulfill the 1<sup>st</sup> Vice-President responsibilities. I feel that this experience combined with my 31 years of nursing experience in the Hospital and Community sectors gives me the knowledge and abilities to hold the 1<sup>st</sup> VP position.

In all my nursing career, I have never seen issues affecting RNs that are so alarming; retention and recruitment realities creating chronic staff shortages, declining working conditions and low morale, violence in the workplace, 24-hours or more shifts. NBNU continues to fight for us the members and for the vulnerable at the Provincial and the Federal level, as what we want for ourselves, we want for everyone. It is my hope that you will give me the opportunity and privilege to continue to work with and for you. Thank you!

Together Stronger!  
Maria Richard, RN

### UNION PARTICIPATION - PROVINCIAL OFFICES HELD

- Unit Representative for Nurse Managers and Nurse Supervisors (2015-present)
- Member of the Part III Educational Assistance Committee (2015-present)
- Member of the Nurse Managers and Nurse Supervisors Workload Committee (2015-present)
- Member of the Nurse Managers and Nurse Supervisors Negotiating Committee (2015-present)

It would be an honor to hold the position of 2<sup>nd</sup> Vice-President of NBNU and represent registered nurses in New Brunswick. Having

five years experience on the NBNU Board of Directors as your Unit Representative for Nurse Managers and Supervisors along with eight years as local president have provided me with the knowledge, comprehension and vision of NBNU, its collective agreements, the labour movement and nursing in New Brunswick.

I bring leadership, dedication, passion and a strong work ethic, skills that would be an asset to the 2<sup>nd</sup> VP role. I have and will continue to be an advocate for all NBNU membership ensuring everyone's voice is heard.

In Solidarity,

## INDEPENDENT AUDITOR'S REPORT

---

To the Members of New Brunswick Nurses Union

### *Opinion*

We have audited the financial statements of New Brunswick Nurses Union (the Organization), which comprise the statement of financial position as at December 31, 2018, and the statements of operations, changes in fund balances and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Organization as at December 31, 2018, and the results of its operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

### *Basis for Opinion*

We conducted our audit in accordance with Canadian generally accepted auditing standards (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Organization in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with those requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### *Responsibilities of Management and Those Charged with Governance for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Organization's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the Organization or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Organization's financial reporting process.

(continues)

*Auditor's Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Organization's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Organization to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# NEW BRUNSWICK NURSES UNION

## Notes to Financial Statements

Year Ended December 31, 2018

---

### 1. PURPOSE OF THE ORGANIZATION

The New Brunswick Nurses Union is recognized as a duly constituted labour organization exempt from taxation under paragraph 149(1)k of the Income Tax Act. The Union was established to advance the economic and social welfare of its members and potential members. The Union assists in the settlement of disputes between its members and their employers and works to attain the goals set out in Article 2 of the union constitution.

### 2. BASIS OF PRESENTATION

The financial statements were prepared in accordance with Canadian accounting standards for not-for-profit organizations (ASNFPO).

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Fund accounting

New Brunswick Nurses Union follows the restricted fund method of accounting for contributions.

The General Fund accounts for the organization's program delivery and administrative activities. This fund reports unrestricted resources and restricted operating grants.

The Membership Defence Fund reports only internally restricted resources that are to be used to fund special union activities as required.

The Nursing Homes Educational Leave Fund reports on externally restricted resources used, at the direction of the Educational leave committee, to fund approved professional development programs applied for by members employed at Nursing Homes.

#### Measurement uncertainty

The preparation of financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Such estimates are periodically reviewed and any adjustments necessary are reported in earnings in the period in which they become known. Actual results could differ from these estimates.

#### Financial instruments policy

Financial instruments are recorded at fair value when acquired or issued. In subsequent periods, financial assets with actively traded markets are reported at fair value, with any unrealized gains and losses reported in income. All other financial instruments are reported at amortized cost, and tested for impairment at each reporting date. Transaction costs on the acquisition, sale, or issue of financial instruments are expensed when incurred.

#### Cash and cash equivalents

Cash includes cash and cash equivalents. Cash equivalents are investments in treasury bills and are valued at cost plus accrued interest. The carrying amounts approximate fair value because they have maturities at the date of purchase of less than ninety days.

### Notes to Financial Statements

Year Ended December 31, 2018

---

#### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

##### Capital assets

Capital assets are stated at cost or deemed cost less accumulated amortization and are amortized over their estimated useful lives on a declining balance basis at the following rates and methods:

Land	N/A
Buildings	4% straight-line method
Furniture and fixtures	10% straight-line method
Computer equipment	25% straight-line method
Computer software	50% straight-line method

##### Revenue recognition

New Brunswick Nurses Union follows the restricted fund method of accounting for revenue.

Union membership dues are recognized as revenue of the General Fund in the year received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Contributions from nursing homes are recognized as revenue of the Nursing Home Educational Leave fund.

Investment income is recognized as revenue of the General Fund when earned, with the exception of the investment income of the Nursing Home Educational Leave Fund, which is reported in that fund.

##### Marketable Securities

Marketable securities, which consist primarily of interest bearing instruments, are carried at amortized cost.

#### 4. FINANCIAL INSTRUMENTS

The organization's financial instruments comprise marketable securities and normal working capital items. Unless otherwise stated, management believes that the fair value of all these items either approximates their carrying value, or cannot be determined because of uncertainty over the timing of related cash flows.

It is management's opinion that the organization has no material financial exposure due to members and other debtors failing to pay amounts owed (credit risk), or changes in commodity prices, interest rates or other market-set prices. The investments in marketable securities present the major source of risk, primarily credit risk and interest rate risk. The organization has adopted a conservative investment policy with diversified holdings of high quality investment instruments.

Nursing Home Educational Leave Fund	298	75
	<b>\$ 128,546</b>	<b>\$ 110,716</b>

7. COMMITMENTS

The union is obligated to make payments on various office equipment leases. The minimum lease payments due in each of the next 3 years are as follows:

Lease payment schedule:

2019	\$ 13,173
2020	472
	<u>\$ 13,645</u>

8. DUE TO (FROM) FUNDS

Interfund loans generally result from accruals of income to be transferred from one fund to another. As soon as the income is received, the loans are paid. These interfund balances are non-interest bearing and recorded as current amounts. At year end, the balances were \$809.

9. CONTINGENT LIABILITY

A lawsuit has been filed against the Union in respect of legislated changes to the member pension plan. It is the Board's opinion that the lawsuit is without merit. As such, no accrual has been made for any contingent liability arising from the lawsuit.

# FINANCE COMMITTEE REPORT

## BY CATHERINE LITTLE

The Finance Committee met with the NBNU Board of Directors in May to discuss the 2018 AGM resolution of financial planning for the future. More details to be discussed at the 2019 AGM.

The Finance Committee met on June 18 and 19 at the NBNU provincial office. Members of the Committee are Amy Dalley, Barb Duplessis, Margie Ellis, Debbie Gill, Director of Operations; ex-officio, Paula Doucet, President and Matt Hiltz, Executive Director and myself as Secretary-Treasurer.

Peter Spacek of the accounting firm Spacek Armstrong & Norrad, met with the Committee to review the audited statements for the year ending 2018.

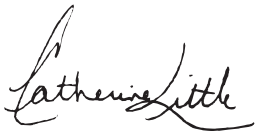

The Committee also prepared the budget for 2020 which is printed in this *Parasol*.

The Finance Committee made the following recommendations for the 2020 budget:

- Keep 4-6 months of expenses in a restricted fund to cover union operating expenses.
- Adhere strictly to the NBNU expense policy (ie: meals will be paid as per policy). As a result, neither breakfast or lunch will be provided for Executive Council and Annual General Meeting 2020, on a trial basis.
- Dues remain frozen for 2020 but consideration for 2021 to unfreeze (union dues have not increased since 2011).

I would like to thank the Committee members for their commitment and support.

In Solidarity,

Catherine Little, RN  
Secretary-Treasurer
