Re: Reminder: Vaccinations for Staff & Physicians Returning from Leave

All Horizon employees & physicians are eligible and should have received an invitation to attend a vaccination clinic to receive their first and second dose of a COVID-19 vaccine.

Invitations were sent to Horizon emails, therefore employees and physicians who have been out on leave may have missed this invitation.

Employees and physicians who have returned to work from a leave and have not received their first or second dose of a COVID-19 vaccine, can book their appointment online through this [link](#), or by calling **1-833-437-1424**.
